

## Universal process adapter

ADAPT UNI RD52

- 1 O-ring 30 x 2, FKM
- 2 O-ring 36 x 3, EPDM

### Application

|                 |        |       |
|-----------------|--------|-------|
| Pressure rating | 16 bar | 4 MPa |
|-----------------|--------|-------|

### Tests / approvals

|                              |                                                                                                               |
|------------------------------|---------------------------------------------------------------------------------------------------------------|
| Pressure equipment directive | A possible classification to PED depends on the application and has to be carried out by the user / operator. |
| Safety instructions          | The compatibility between medium and product material has to be checked in all applications.                  |

### Mechanical data

|                          |                                                                                  |     |
|--------------------------|----------------------------------------------------------------------------------|-----|
| Weight                   | [g]                                                                              | 378 |
| Materials (wetted parts) | stainless steel (1.4435 / 316L) surface characteristics: Ra < 0,4 µm / Rz = 4 µm |     |
| Sensor connection        | G 1 Aseptoflex Vario                                                             |     |
| Process connection       | universal process adapter Rd 52                                                  |     |
| Sealing                  | Gasket                                                                           |     |
