

# E43317

## T-piece

T-PIPE/G1/2/L120/DN40

FCM

### Application

|                 |                                                          |         |
|-----------------|----------------------------------------------------------|---------|
| Design          | for sensors and adapters with process connection G 1/2 A |         |
| Pressure rating | 25 bar                                                   | 2.5 MPa |

### Tests / approvals

|                              |                                                                                                               |  |
|------------------------------|---------------------------------------------------------------------------------------------------------------|--|
| Pressure equipment directive | A possible classification to PED depends on the application and has to be carried out by the user / operator. |  |
| Safety instructions          | The compatibility between medium and product material has to be checked in all applications.                  |  |

### Mechanical data

|                          |                                                                                         |       |
|--------------------------|-----------------------------------------------------------------------------------------|-------|
| Weight                   | [g]                                                                                     | 407.5 |
| Materials (wetted parts) | T-piece: stainless steel (1.4404 / 316L) surface characteristics: Ra < 0,4 µm / Rz 4 µm |       |
| Sensor connection        | G 1/2 sealing cone                                                                      |       |
| Process connection       | T-piece DN40 (41 x 1,5); Maße gemäß DIN 11866; Reihe A DIN                              |       |

### Remarks

|               |        |
|---------------|--------|
| Pack quantity | 1 pcs. |
